The Honorable Board of Supervisors
County of Los Angeles
383 Kenneth Hahn Hall of Administration
Los Angeles, California 90012

Dear Supervisors:

**ACCEPT A GRANT AWARD FROM THE OFFICE OF TRAFFIC SAFETY FOR
THE SELECTIVE TRAFFIC ENFORCEMENT PROGRAM
AND APPROVE AN APPROPRIATION ADJUSTMENT
(ALL DISTRICTS) (4 VOTES)**

SUBJECT

Request Board approval authorizing the Sheriff of Los Angeles County (County) to accept a grant award in the amount of \$1.1 million from the State of California (State), Office of Traffic Safety (OTS), for the 2013-14 Selective Traffic Enforcement Program (Program) using Federal funds passing through the State and approve an Appropriation Adjustment.

IT IS RECOMMENDED THAT THE BOARD:

1. Approve and authorize the Sheriff, as an agent for the County, to execute the attached Grant Agreement Number PT14118 (Agreement) with OTS, accepting grant funds from the State in the amount of \$1.1 million for the Los Angeles County Sheriff's Department's (Department) Risk Management Bureau (RMB) for the grant period from October 1, 2013, through September 30, 2014. There is no match requirement for the Program.
2. Adopt the attached Resolution authorizing the Sheriff to accept and execute the Agreement in the amount of \$1.1 million (no match required) for the Department's RMB to continue targeting traffic safety enforcement.
3. Delegate authority to the Sheriff, or his designee, to execute and submit all required grant documents, including but not limited to, applications, agreements, memorandum of understanding, amendments, modifications, augmentations, extensions, payment requests, and grant renewals that may be necessary for the completion of this Program.

4. Approve an Appropriation Adjustment to increase the Department's General Support budget in the amount of \$340,000 (\$315,000 for Salaries and Employee Benefits [\$160,000 for overtime], and \$25,000 for Services and Supplies) for Fiscal Year (FY) 2013-14 to be fully offset by grant funding.

5. Delegate authority to the Sheriff, as an agent for the County, to apply and submit a grant application to the OTS for the Program, when and if such future funding becomes available.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The main purpose and goals of the Program will be to reduce the number of persons killed and injured in alcohol-involved and drug-involved traffic collisions, and reduce the number of hit and run fatality and injury collisions. The Program will involve Driving Under the Influence (DUI) saturation patrols, distracted driving, traffic enforcement (based on primary collision factor violations), motorcycle safety, red light enforcement, and speed enforcement operations. Law enforcement personnel working under the grant will participate in the National Distracted Driving Awareness Month in April 2014, the Statewide "Click It or Ticket" mobilization period in May 2014, and the Mothers Against Drunk Driving/Avoid DUI Seminars, as well as collaborate with the County's "Avoid Coalition" to participate in the planning and scheduling of all meetings related to the grant.

The \$1.1 million in grant funding will be used to fund Salaries and Employee Benefits for one bonus deputy position funded at 100 percent who administers the grant, overtime salaries for personnel working under the grant, and Services and Supplies to include travel and training, preliminary alcohol screening devices, and calibration supplies. It is anticipated that the grant will be modified in the near future to fund a sergeant position in lieu of the bonus deputy position, with no change to the total grant amount.

Implementation of Strategic Plan Goals

The Program meets the County's Strategic Plan, Goal 3, Integrated Services Delivery, by providing a comprehensive traffic safety program to the 17 contracted cities and target areas identified with greater traffic issues within the County.

FISCAL IMPACT/FINANCING

Funding of \$760,000 for this Program was included in the Department's General Support budget for FY 2013-14. Therefore, we are requesting approval of an Appropriation Adjustment in the amount of \$340,000 (\$315,000 for Salaries and Employee Benefits [\$160,000 for overtime], and \$25,000 for Services and Supplies) to augment the Department's budget for FY 2013-14. This amount will be fully offset by OTS funds provided by the National Highway Traffic Safety Administration. There is no match requirement.

The \$1.1 million in grant funding will be used to fund Salaries and Employee Benefits for one bonus deputy position funded at 100 percent who administers the grant, overtime salaries for personnel working under the grant, and Services and Supplies to include travel and training, preliminary alcohol screening devices, and calibration supplies.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

This will be the ninth year of funding for this Program. The grant period will commence on October 1, 2013, and end on September 30, 2014. This grant award will enable the Department's RMB to continue to target traffic safety enforcement operations within 17 contract cities throughout the County during the duration of the grant.

The County agrees to indemnify, defend, and save harmless the State of California, its officers, agents, and employees from any and all claims and losses accruing or resulting to any and all contractors, subcontractors, suppliers, laborers, and any other person, firm, or corporation furnishing or supplying work services, materials, or supplies in connection with the performance of the Agreement, and from any and all claims and losses accruing or resulting to any person, firm, or corporation who may be injured or damaged by the County in the performance of the Agreement.

This Board letter has been reviewed and the Resolution has been approved as to form by County Counsel.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

This Board letter was forwarded to the District Attorney's Office, the Public Defender's Office, and the Alternate Public Defender's Office for review. Upon review of the Board letter, the District Attorney's Office believes that the Program will have minimal impact on their services, which can be managed with existing resources; the Alternate Public Defender's Office confirmed that acceptance of the Program will impact their office through increased arrests and criminal complaint filings during the grant year; however, the Alternate Public Defender believes that the impact can be managed with existing department resources; and the Public Defender's Office has determined that the Program will have some impact on their services; however, there is insufficient information to determine the extent of impact.

CONCLUSION

Upon Board approval, please return two individually certified copies of the adopted Board letter and a signed original Resolution to the Department's Grants Unit.

Sincerely,

A handwritten signature in blue ink, appearing to read "Leroy D. Baca".

PROBLEM STATEMENT

In 2011, California's traffic fatalities increased 2.6 percent (2,720 vs. 2,791) – still one of the lowest levels since the federal government began recording traffic fatalities in 1975. California 2011 Mileage Death Rate (MDR) – fatalities per 100 million miles traveled - is 0.87, and marks the third time California has been below 1.0. California is much better than the national 1.11 MDR. Fatality rates increased 3 percent from 2010 to 2011, and are projected to increase an additional 3 percent in 2012.

Alcohol-impaired driving fatalities (fatalities in crashes involving a driver or motorcycle rider (operator) with a blood alcohol concentration (BAC) of 0.08 grams per deciliter (g/dL) or greater) matches our historic low of 774 in 2010 and 2011. The 774 figure is the lowest DUI death total ever. As a percent of total fatalities, alcohol-impaired fatalities decreased from 29 percent in 2010 to 28 percent in 2011. This number has remained virtually unchanged in the past five years and DUI arrests have dropped in 2011 to 180,212 as compared to 195,897 in 2010. The 2011 DUI arrest figure represents the lowest DUI arrests since 2002.

For the second year in row, OTS commissioned an observational survey of cell phone use by drivers within the state, looking for hand-held and hands-free talking as well as texting and other use of mobile devices while driving. The overall rate was 10.8 percent of drivers on the road using cell phones at any given daylight time, up from 7.3 percent in 2011. Although observed cell phone use increases were seen across all age groups, 16 to 25 year olds showed a dramatic rise, doubling from 9 percent to 18 percent.

The problem of drugged driving continues to rise. Based on data from the National Highway Traffic Safety Administration, 30 percent of all drivers who were killed in motor vehicle crashes in California in 2011 tested positive for legal and/or illegal drugs, a percentage that has been increasing since 2006.

Motorcycle fatalities increased 15 percent from 352 in 2010 to 414 in 2011. Projections indicate a similar number were killed in 2012.

OFFICE OF TRAFFIC SAFETY – 2010 RANKINGS

The OTS Rankings provide individual cities a way to compare their city's traffic safety statistics to those of other cities with similar-sized populations. Cities can use these comparisons to see what traffic safety areas they may have problems in and which they were doing well in. Identifying emerging or on-going traffic safety problem areas help cities plan how to combat the problems. It should be noted that OTS rankings are only indicators of potential problems; there are many factors that may either understate or overstate a city/county ranking that must be evaluated based on local circumstances.

The OTS Rankings are determined by the following: (1) Victim and collision data for the rankings is taken from the latest available California Highway Patrol (CHP) Statewide Integrated Traffic Records System (SWITRS) data; (2) Victim and collision rankings are based on rates of victims killed and injured or fatal and injury collisions per "1,000 daily-vehicle-miles-of-travel" (Caltrans data) and per "1,000 average population" (Department of Finance data) figures. This more accurately ensures proper weighting and comparisons when populations and daily vehicle miles traveled vary; (3) DUI arrest totals and rankings are calculated for cities only and are based on rates of non-CHP DUI arrests (Department of Justice data). This is so that local jurisdictions can see how their own efforts are working; and (4) Counties are assigned statewide rankings, while cities are assigned population group rankings.

NOTE: City rankings are for incorporated cities only. County Rankings include all roads – state, county and local – and all jurisdictions – CHP, Sheriff, Police and special. OTS Rankings are calculated so that the higher the number of victims or collisions per 1000 residents in a population group, the higher the ranking. Number 1 in the rankings is the highest, or "worst." So, for Group B, a ranking of 1/53 is the highest or worst, 27/53 is average, and 53/53 is the lowest or best. The same methodology also applies for DUI arrest rankings.
